

Working Remotely

We understand the importance of being able to stay connected even when on the move. Whether this be simply sending and receiving e-mails whilst away from the office, or setting up a remote satellite office.

We have experience in setting up all kinds of solutions, but the most important thing is to get a full understanding of what you are trying to achieve and how to best achieve these results through the available technology. Whether you require a VPN connection, Terminal Services, or e-mail on your mobile via a Windows Mobile smart phone, we can help you implement the most cost effective solution.

To find out what Support IT can do for your business, contact us using our online form or call us today on 0845 680 0210 to book your FREE Problem Prevention IT Audit Worth £295 Pounds!
